Quality Statement

**Total customer satisfaction
is the daily mission for each
and every employee.**

The mission is obtained through:

- The delivery of quality products and services to the customer on an ongoing basis.
- There is a company understanding and commitment to the concept of the "Customer" being:
 - The next person, process, department or organization which receives a product or service from the efforts of any single or combined employee effort.
 - The commitment to continuous improvement and compliance with customer needs.
 - The implementation and diligence to follow quality and safety procedures as outlined by SOP's by each employee.
